# Are you ready?

**It is Time. Time for a change. Time for YOU.**

Being a High-Achieving Woman sounds powerful to the outside world. But let me ask you: *How does it really feel?*

**Are you comfortable** with your thoughts and beliefs about yourself and what you can create in this world?

**Intellectually, you know** that you are strong, capable, and powerful and can achieve anything you want. But are you often overwhelmed by self-critical, anxious thoughts, fear and stress?

**Do you ever resent** your partner's demanding role and wonder when the time will come for your dreams and desires?

**And where is your time going anyway?** For years you have been taking care of everyone else—you've earned the right to a Best Supporting Actress award.

**But deep inside there is something missing.**

**You have a burning desire to start your own business or bring a personal project to life.** But you doubt yourself and wonder how you could ever FIND THE TIME.

**It's TIME to shed the things that are holding you back:**

No more self-doubt, no more insecurity, no more wasting time on perfectionism and procrastination.
